**REQUEST FOR SUPERVISOR INTERVENTION**

Dear Supervisor Page:

Further to our conversation in early May, I am requesting your input into the present matter. As you instructed me at that time, I called you after May 15, 2004 and left several voice mails which were not answered. Undoubtedly, you are extremely busy and I apologize for any undue burden this request places on you. However, I believe that your insight and experience may be of great use in expediting the end of this prosecution, or alternatively, explaining in a detailed manner the reasons for not allowing the application.

The technology is relatively simple, a haircare composition, and should not require significant review of the technology.

The specific issue is whether or not the Examiner has given proper weight to the specification's objective evidence. These tests demonstrate that the claimed combination of components provides a haircare product with unexpectedly superior performance in relation to various styling parameters. The Examiner apparently is not persuaded by this evidence.

Attached is a copy of the most recent response filed on June 24, 2004. Hopefully, this may be of some help in determining the legal points on which the Examiner and the Applicants do not agree.

Should you feel that a personal conversation with the undersigned would help expedite the matter, please feel free to call at any time.

Thank you for your time and attention.

Respectfully Submitted,

Norris, McLaughlin & Marcus
